

Développement de Logiciels Libres 2011

A five-minutes introduction

Luca Saiu <saiu@lipn.univ-paris13.fr>

LIPN, Université Paris 13

LIPN, 2011

Timetable: you have time for homework and review

Tue	2011-09-20	13:45..15:15	DLL CM1	Becquerel
Tue	2011-09-20	15:30..18:45	DLL TP1	G20 [78]
[Practice with Scheme: finish the first TP at home]				
Tue	2011-10-11	13:45..15:15	DLL CM2	Becquerel
Tue	2011-10-11	15:30..18:45	DLL TP2	G20 [78]
Tue	2011-10-25	13:45..15:15	DLL CM3	Becquerel
Tue	2011-10-25	15:30..18:45	DLL TP3	G20 [78]
[Long interval without DLL: homework]				
Wed	2011-12-14	13:45..15:15	DLL CM4	[where?]
Wed	2011-12-14	15:30..18:45	DLL TP4	G20 [78]
[Long interval without DLL: big project]				
Wed	2012-01-11	13:45..15:15	DLL CM5	[where?]
Wed	2012-01-11	15:30..18:45	DLL TP5	G20 [78]
Wed	2012-01-18	13:45..15:15	DLL CM6	[where?]
Wed	2012-01-18	15:30..18:45	DLL TP6	G20 [78]

Exam

Project in Scheme, under GNU/Linux (**mandatory**; details to follow)

You **must** subscribe to the mailing list.

— Can I work with my friend / housemate / fiancé(e)? — **Ok: maximum two people per group; orals at my discretion (just to verify authorship)**

— I don't have Internet access! — **You'll need Internet access, but you can use the Institut Galilée labs**

Don't even think about cheating

Sharing ideas is ok, submitting something written by others is cheating. This includes copying from the Internet (I can use Google).

If you cheat:

- your mark will be 0/20;
- I will notify who's in charge;
 - *No begging, no crying.*

No panic

:-)

Don't worry, it's gonna be fun
